PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Cyber Security & Digital Forensics with experience in backend development, automation systems, and secure application design. Strong foundation in Data Structures & Algorithms, OOP, and scalable software architecture.

PROFESSIONAL EXPERIENCE

Software Development Engineer Intern – Pro India (Jun 2024 – Oct 2024)

- Developed an automated email system reducing manual effort by ~40%.
- Integrated Zoho CRM APIs reduce data processing time by ~30%.
- Designed database schemas and SRS documentation.
- Maintained IT systems with 99%+ uptime.

PROJECTS

Project	Description & Tech Stack
Cryptoshare	Built Python-based stock data pipeline (100+ data points/session). Implemented trend analysis & modular scraping. Tech: Python, BeautifulSoup, Requests, Pandas
Blockchain-Based Supply Chain Management	Developed a blockchain-inspired tracking system with hashing validation. Built backend using Java (JDBC, Servlets, JSP). Tech: Java, MySQL, HTML, CSS
FraudGuard – Fraud Detection System	Engineered rule-based transaction validation system reducing false approvals by ~25%. Designed extensible detection architecture. Tech: Python, Data Processing

LEADERSHIP EXPERIENCE

Club Coordinator – Team TechnoJam

- Organized technical workshops, coding competitions & hackathon.
- Increased student participation by ~30% through outreach initiatives

TECHNICAL SKILLS

Languages: Python, Java, C | Web: HTML, CSS, JavaScript, PHP | Databases: MySQL, MongoDB
Core CS: DSA, OOP, DBMS, OS | Tools: Git, GitHub, Jenkins | REST APIs, Secure Design

EDUCATION

B.Tech – Computer Science (Cyber Security & Digital Forensics), Galgotias University (2024–2027)

Diploma – Computer Science Engineering, United University (2021–2024)

CERTIFICATIONS & ACHIEVEMENTS

- Introduction to Cybersecurity - Cisco - March 2026
- GATE 2026 Qualified
